

Today's Innovation is Tomorrow's Basic.

Wax			Wax/Resin			Near Edge				
Broad performance characteristics deliver the image quality and durability required for most applications.			Premium wax/resin ribbons produce excellent results across a wide range of media. They provide durability, and resistance for demanding applications.			Near edge ribbons are the perfect solution for flexible packaging applications such as snack foods. When speed, durability, and performance are expected, our near edge ribbons fulfill the requirements by producing crisp, dark images as well as printing at speeds up to 26 IPS.

### Resin

Our specialty resin ribbons are as diverse as they are durable. Resin ribbons provide improved image quality and durability for applications that require special performance characteristics like resistance to extreme environmental conditions, harsh chemicals, scratching, and smudging. Our ribbons provide excellent print quality at high speeds using less energy and are considered the best in the market.
