

✓ **V390**

Versatility defined print-on-packaging near-edge resin ribbon

Increased efficiency on a wide range of substrates for TTO and near-edge

- **Minimise Change-Overs:** Offers seamless printing on various substrates, streamlining your production - V390 delivers.
- **Less Plastic Waste:** Reduced waste material, longer ribbons thanks to ultra-thin PET film - V390 goes the extra mile.
- **Superb Endurance:** Caters to diverse printing needs against common chemicals and solvents - V390 is durable.

Recommended industries

Minimise risks in printing codes and product information. Discover industries where this Thermal Transfer Ribbon is recommended to use.

Synthetics	
PP	5/5 - Superb performance
PE	5/5 - Superb performance
PET	5/5 - Superb performance

Other	
Coated paper	3/5 - Average performance
Aluminium	3/5 - Average performance
Specialties	4/5 - Good performance

Technical product information

Total thickness:	5.4 ± 0.9 micron
Base film thickness:	4 ± 0.4 micron
Ink thickness:	1.4 ± 0.5 micron
Ink type:	Resin
Ink colour:	Black
Printer type:	Near-edge or TTO
Back-coating:	Anti-static
Print speed up to:	28 IPS
Print sensitivity:	4/5 - High
Ribbon length up to:	2000m

Store between 5-35°C, 20-80% relative humidity, keep away from heat and direct sunlight.

Thermal Transfer Ribbons that deliver variable print excellence

All DNP ribbons are designed to consistently deliver high-quality variable print. DNP's Thermal Transfer Ribbons have unique formulations and their own performance specialties.
